Subject: Re: DHS

We had an incident that began on Sunday 11/8 to Monday 11/9 where we found alerts and events of someone trying to run Vulnerability scans and run scripts to gain access into our environment. Specifically our external OWA server.

Due to my research on the company and the owner of the company belonging to the IP address in question, I am concerned that this was a politically motivated attack. I have attached all links of my research in the body. I have attached the reports from our secureworks and Palo alto alerts and screenshots of the person of interests social media page

If you have questions please reach out to me.

Ed can you reach out to Klint Walker with DHS and let him know that we just sent an issue over to MSISAC that is possibly related to elections. Thanks
